

carbo

## location

**view from my bedroom window**

**= stake out point**

**divide between private & public**

**many forms of transport pass here**

**easily accessible**

**traffic differs at every hour**

i cross the cube frequently

driving in or out, or bringing away trash

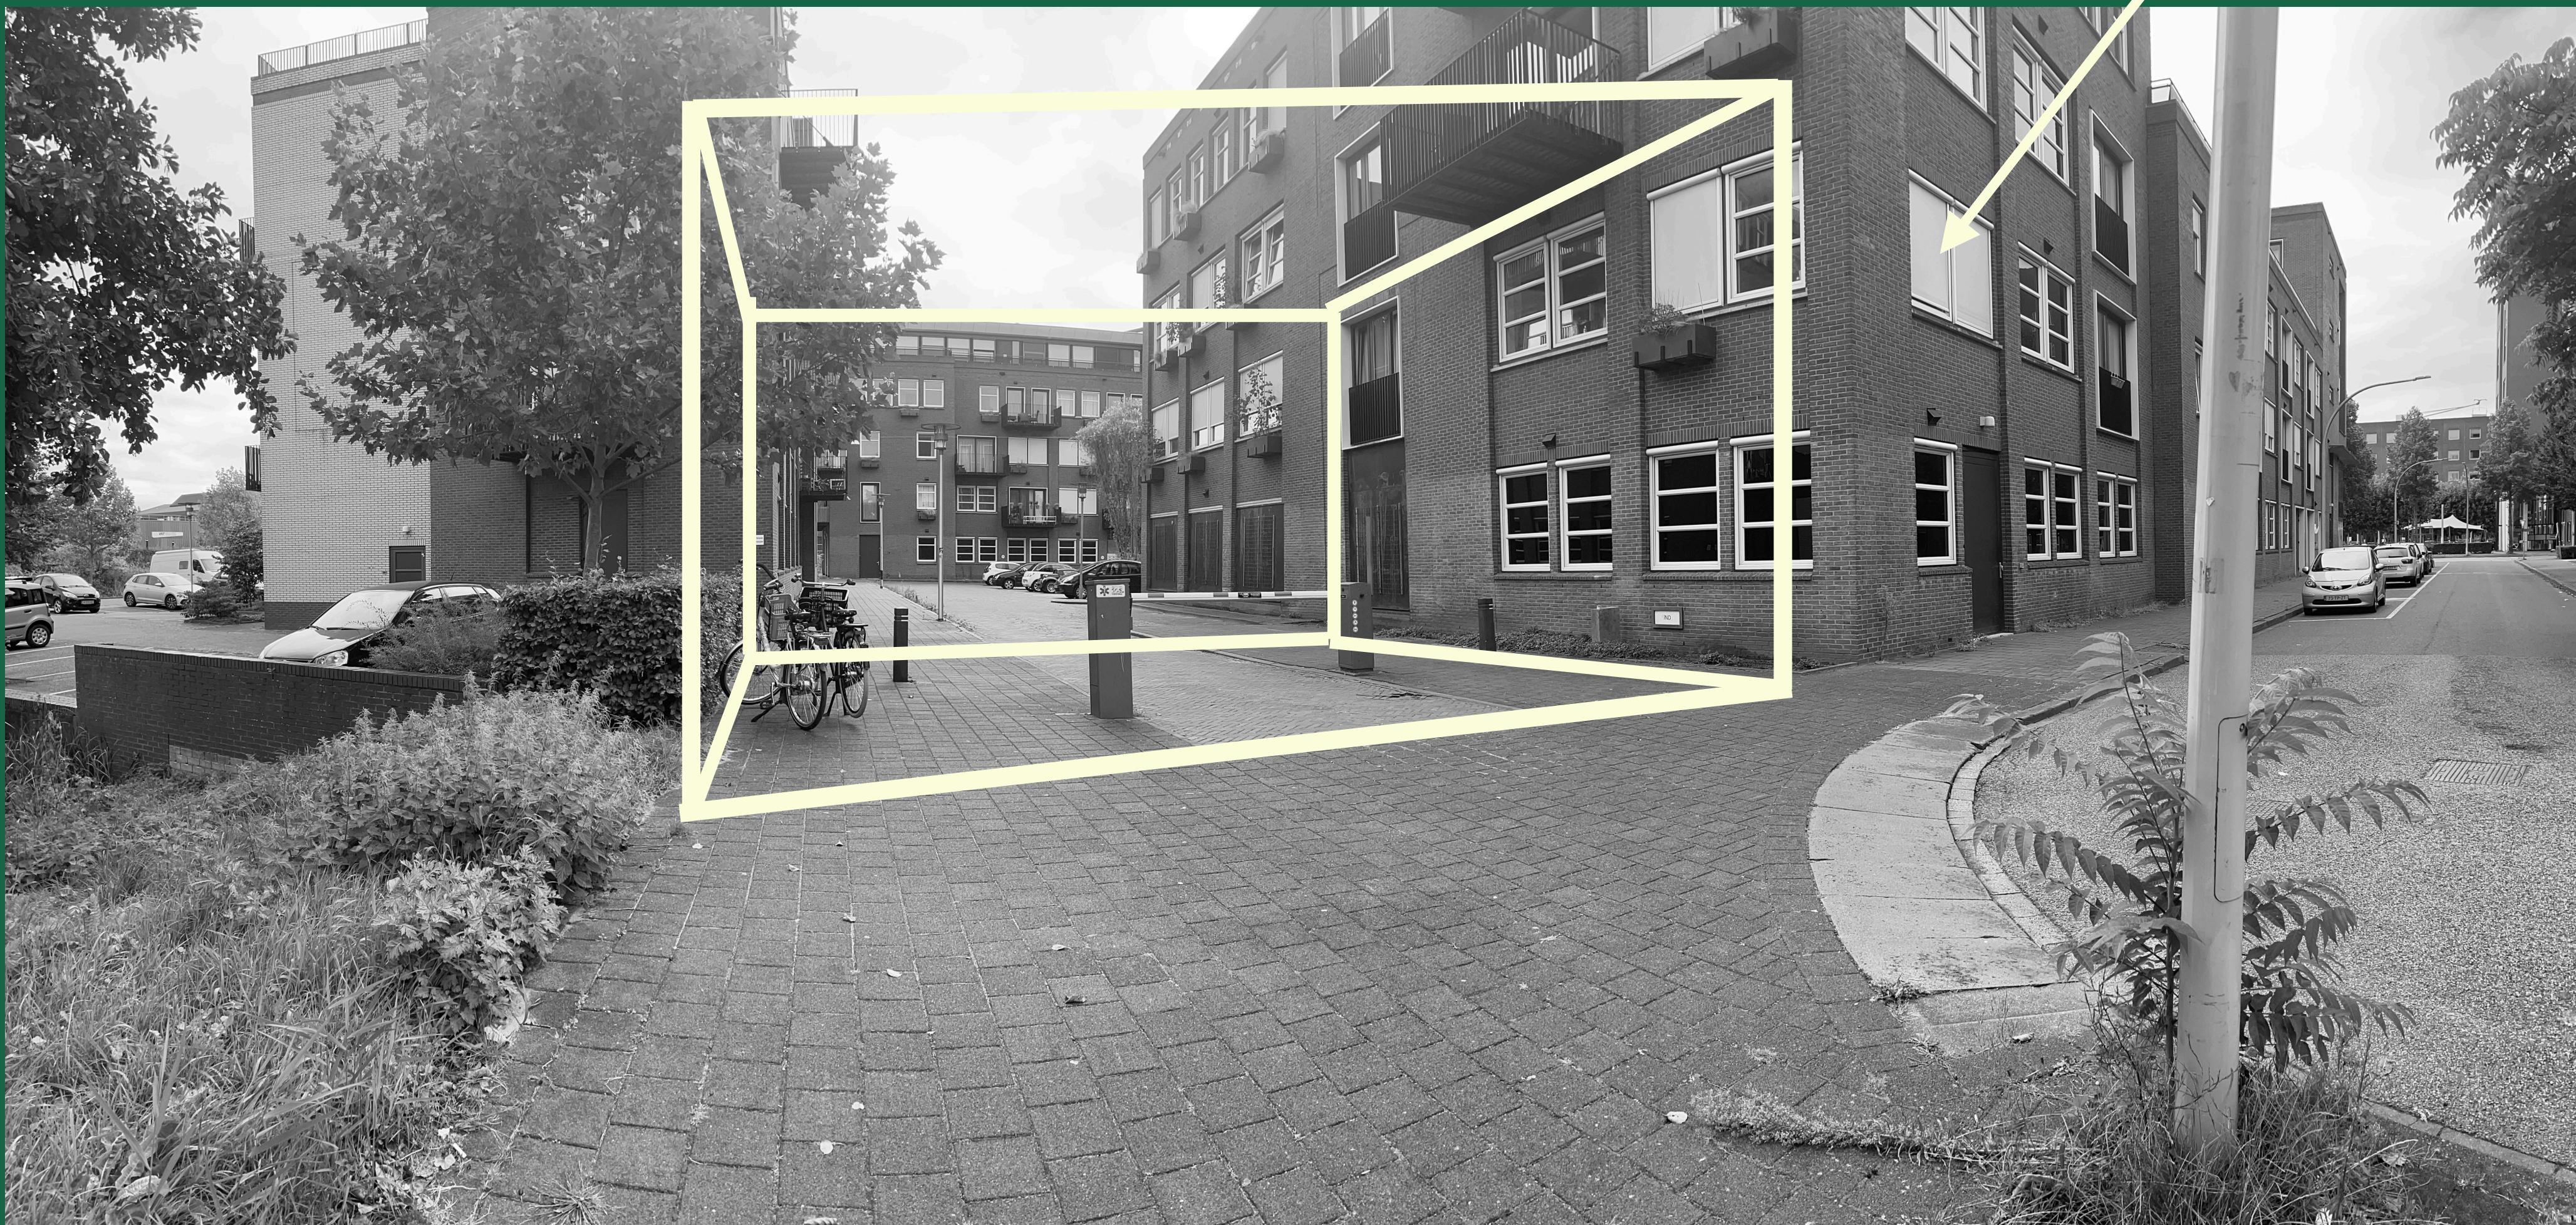

pictures  
of the

carbo

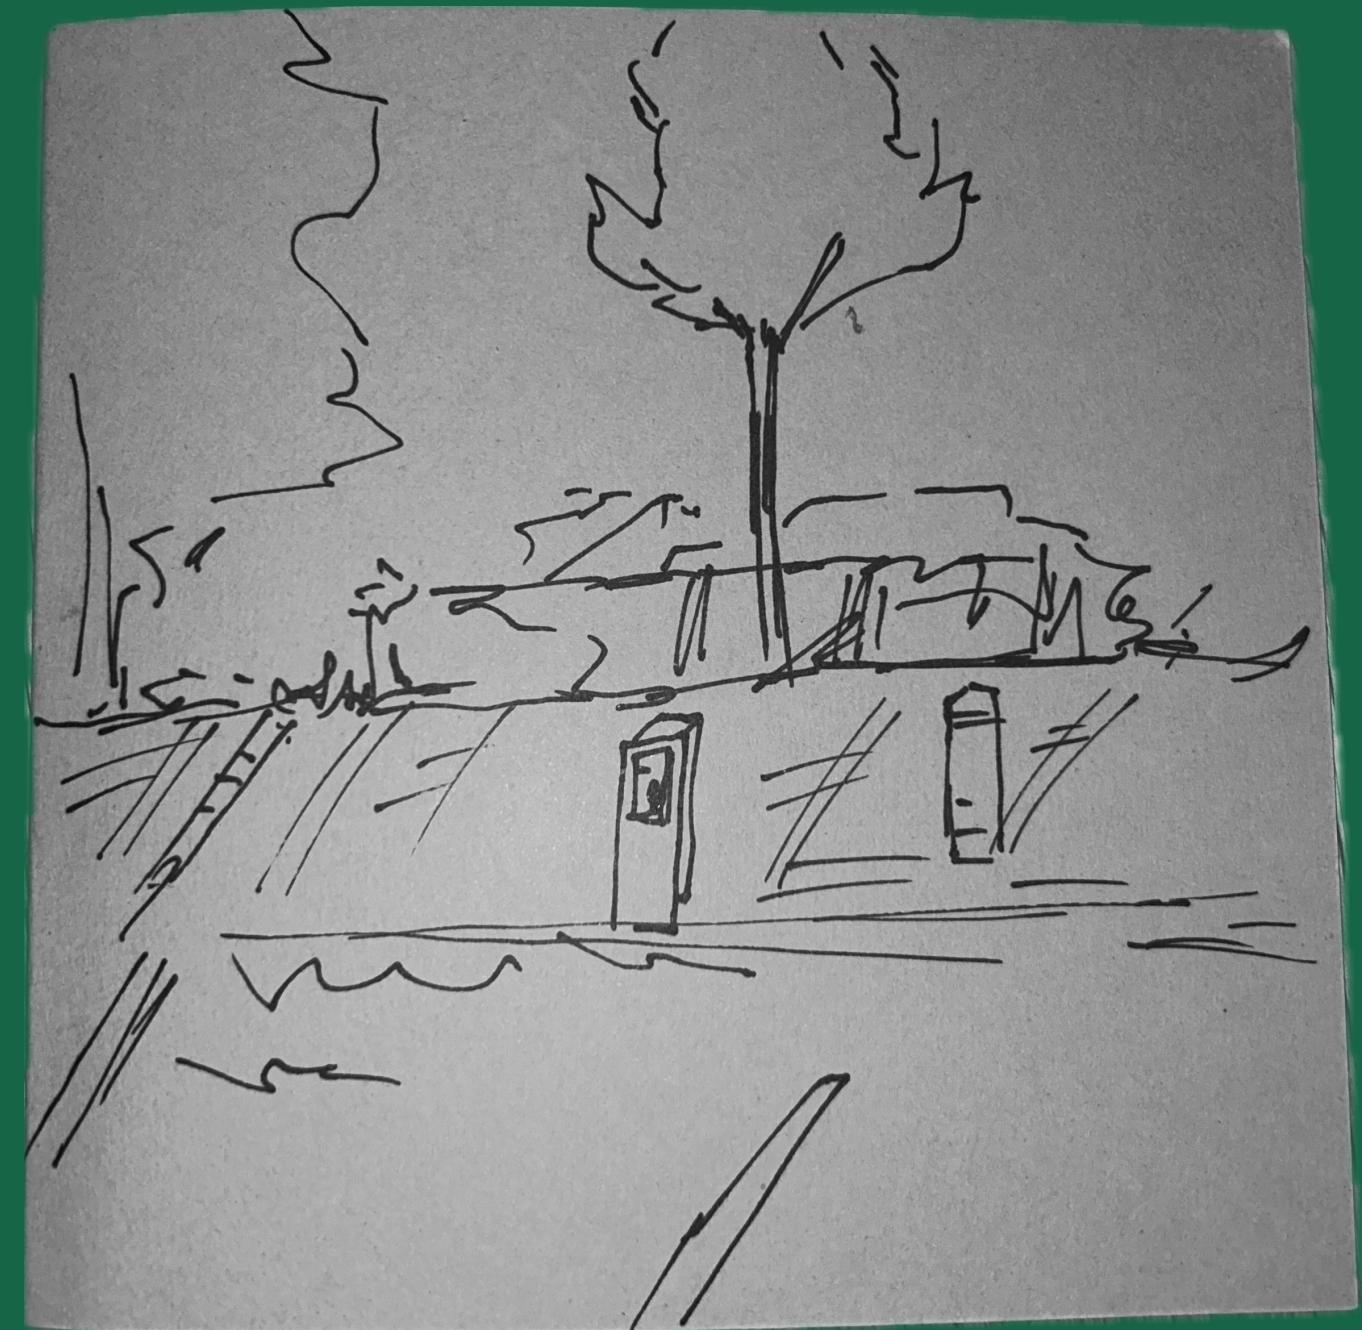

drawings  
of the  
*caribe*

**birds eye  
from memory**

**people &  
movement**

**bedroom  
view**

notes

of the

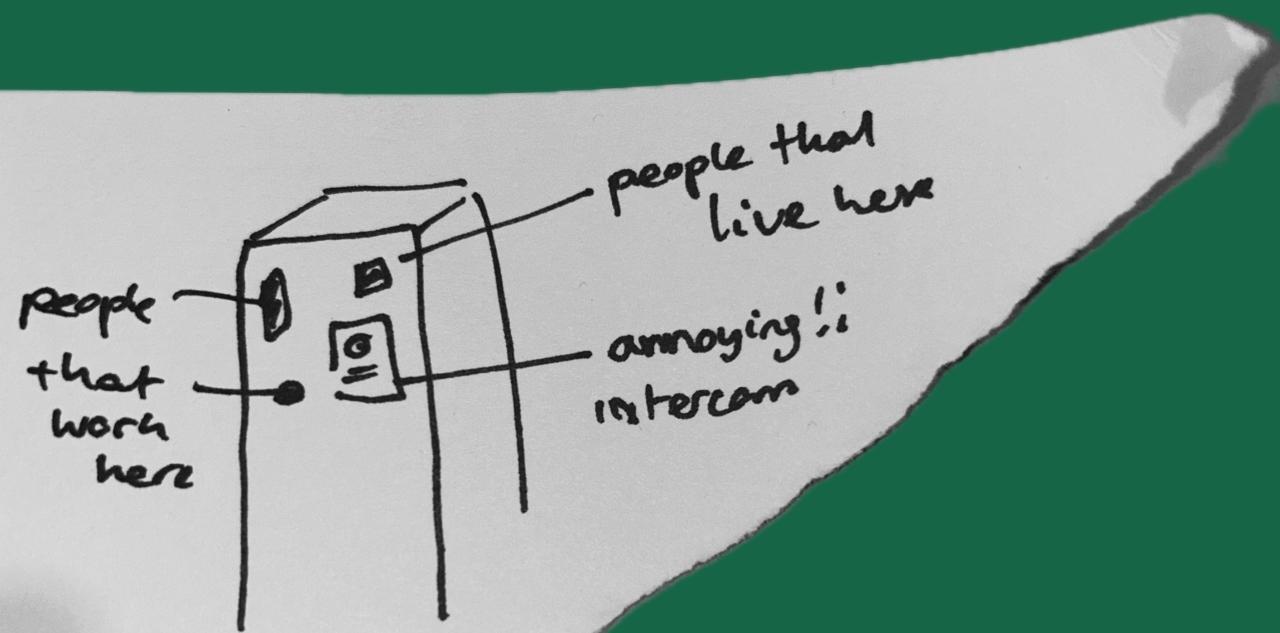

# cube

at 2 am I wake  
up to noise  
- 2 kids on scooters  
arguing.

my cube acts like the  
tide, a little.

in the morning people  
rush in, in the evening  
they rush out

the same girls park  
in the cube every school day.  
one is always early  
the other always  
late. they leave  
together, chatty.

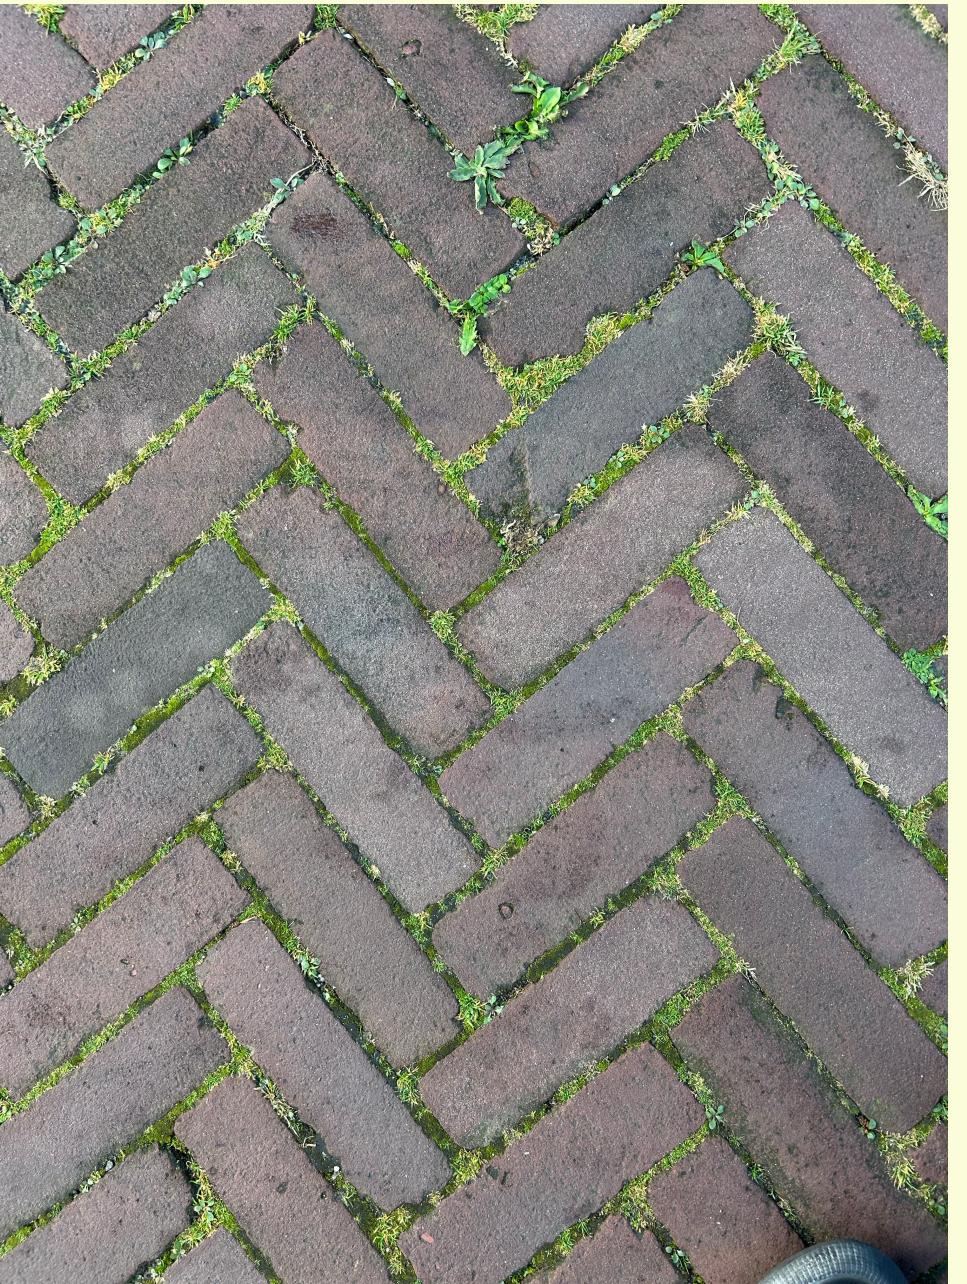

I can't decide if  
my cube is partially private  
or entirely public.  
only cars are stopped  
sometimes, I guess

on the 14th, there  
was a techno festival.  
many partygoers passed  
by

patterns  
of the  
*carbe*

**brick zigzag**

**stacked grid**

measurements

of the

carbe

**1,5 rotations on the  
pedals of my bike  
across**

**8 long steps across**

**approx. 1,5 cars**

**one long throw**

**23 tiny steps across**

**4 seconds of driving  
and 12 seconds of  
attempting to open  
the parking gate  
across**

**about 14 footballs**

**about 14 footballs**

textures  
inside the  
*carpe*

**pavement**

**mossy brick  
(less walked on)**

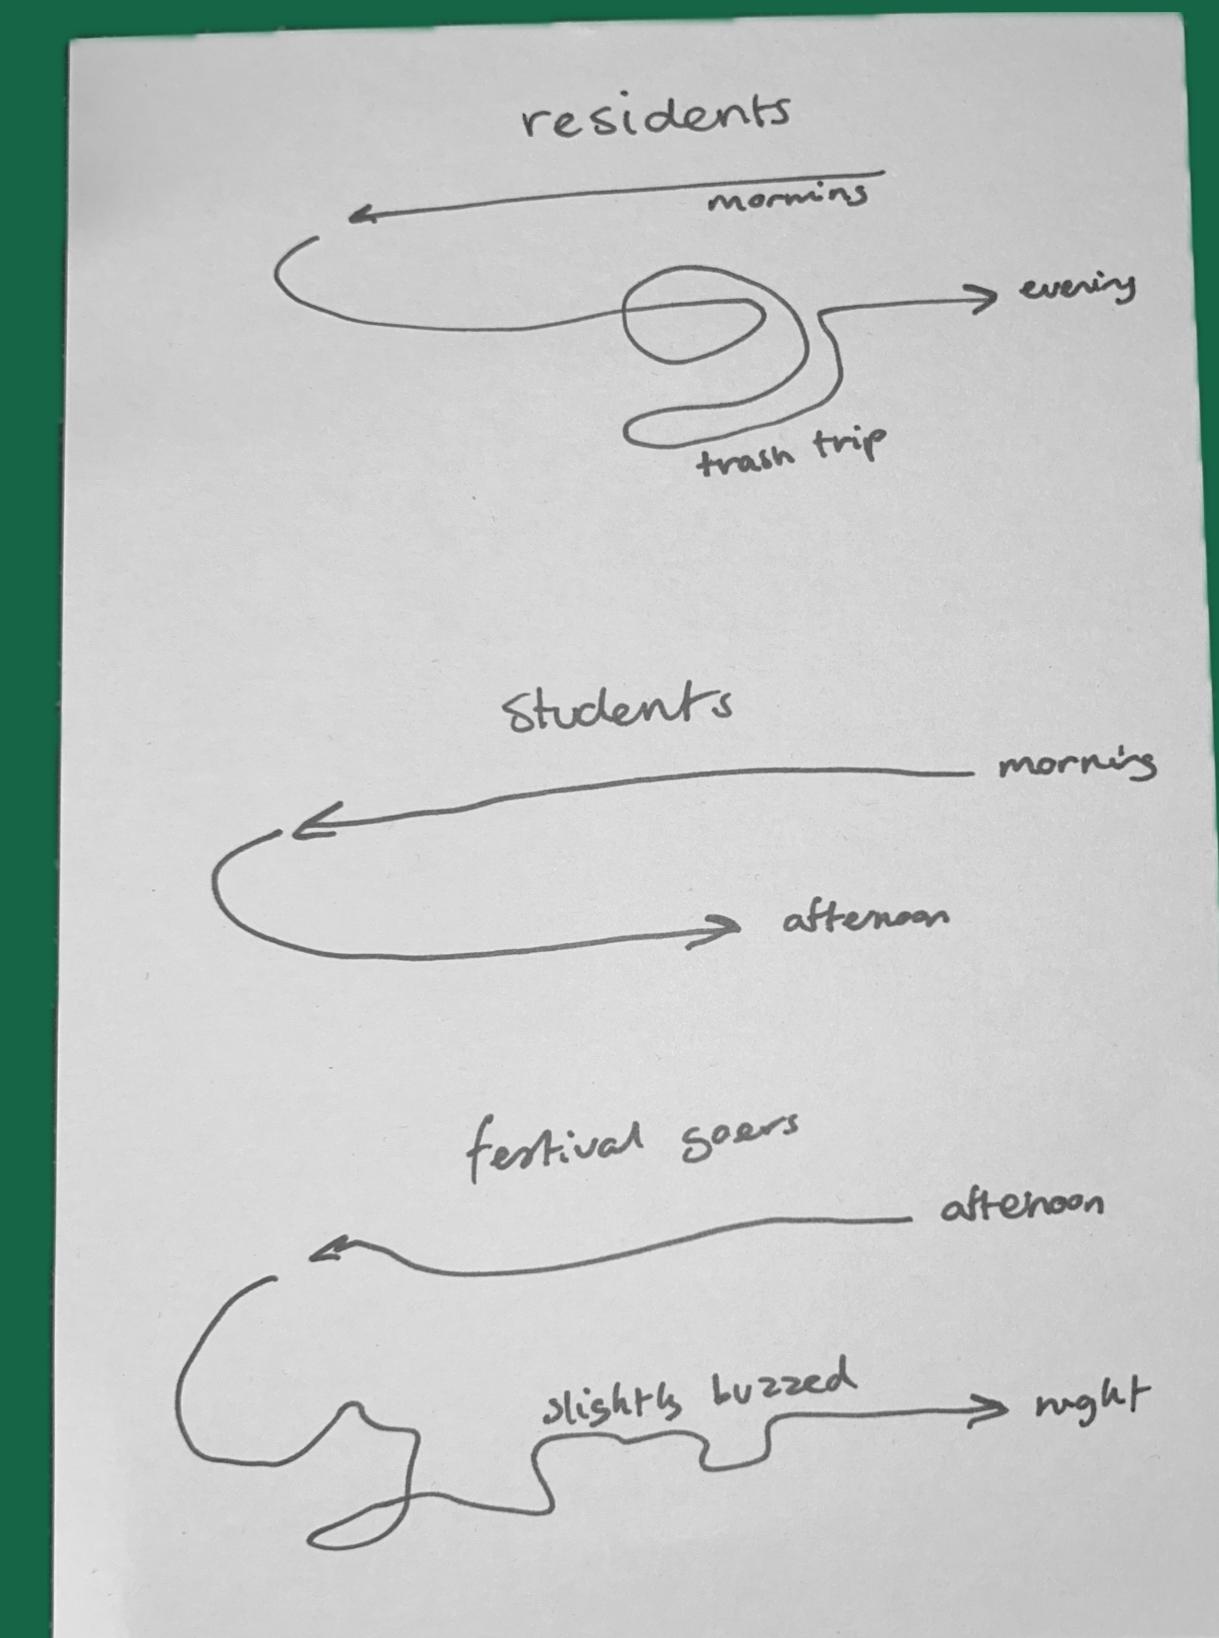

permanently  
inside the  
*carōe*

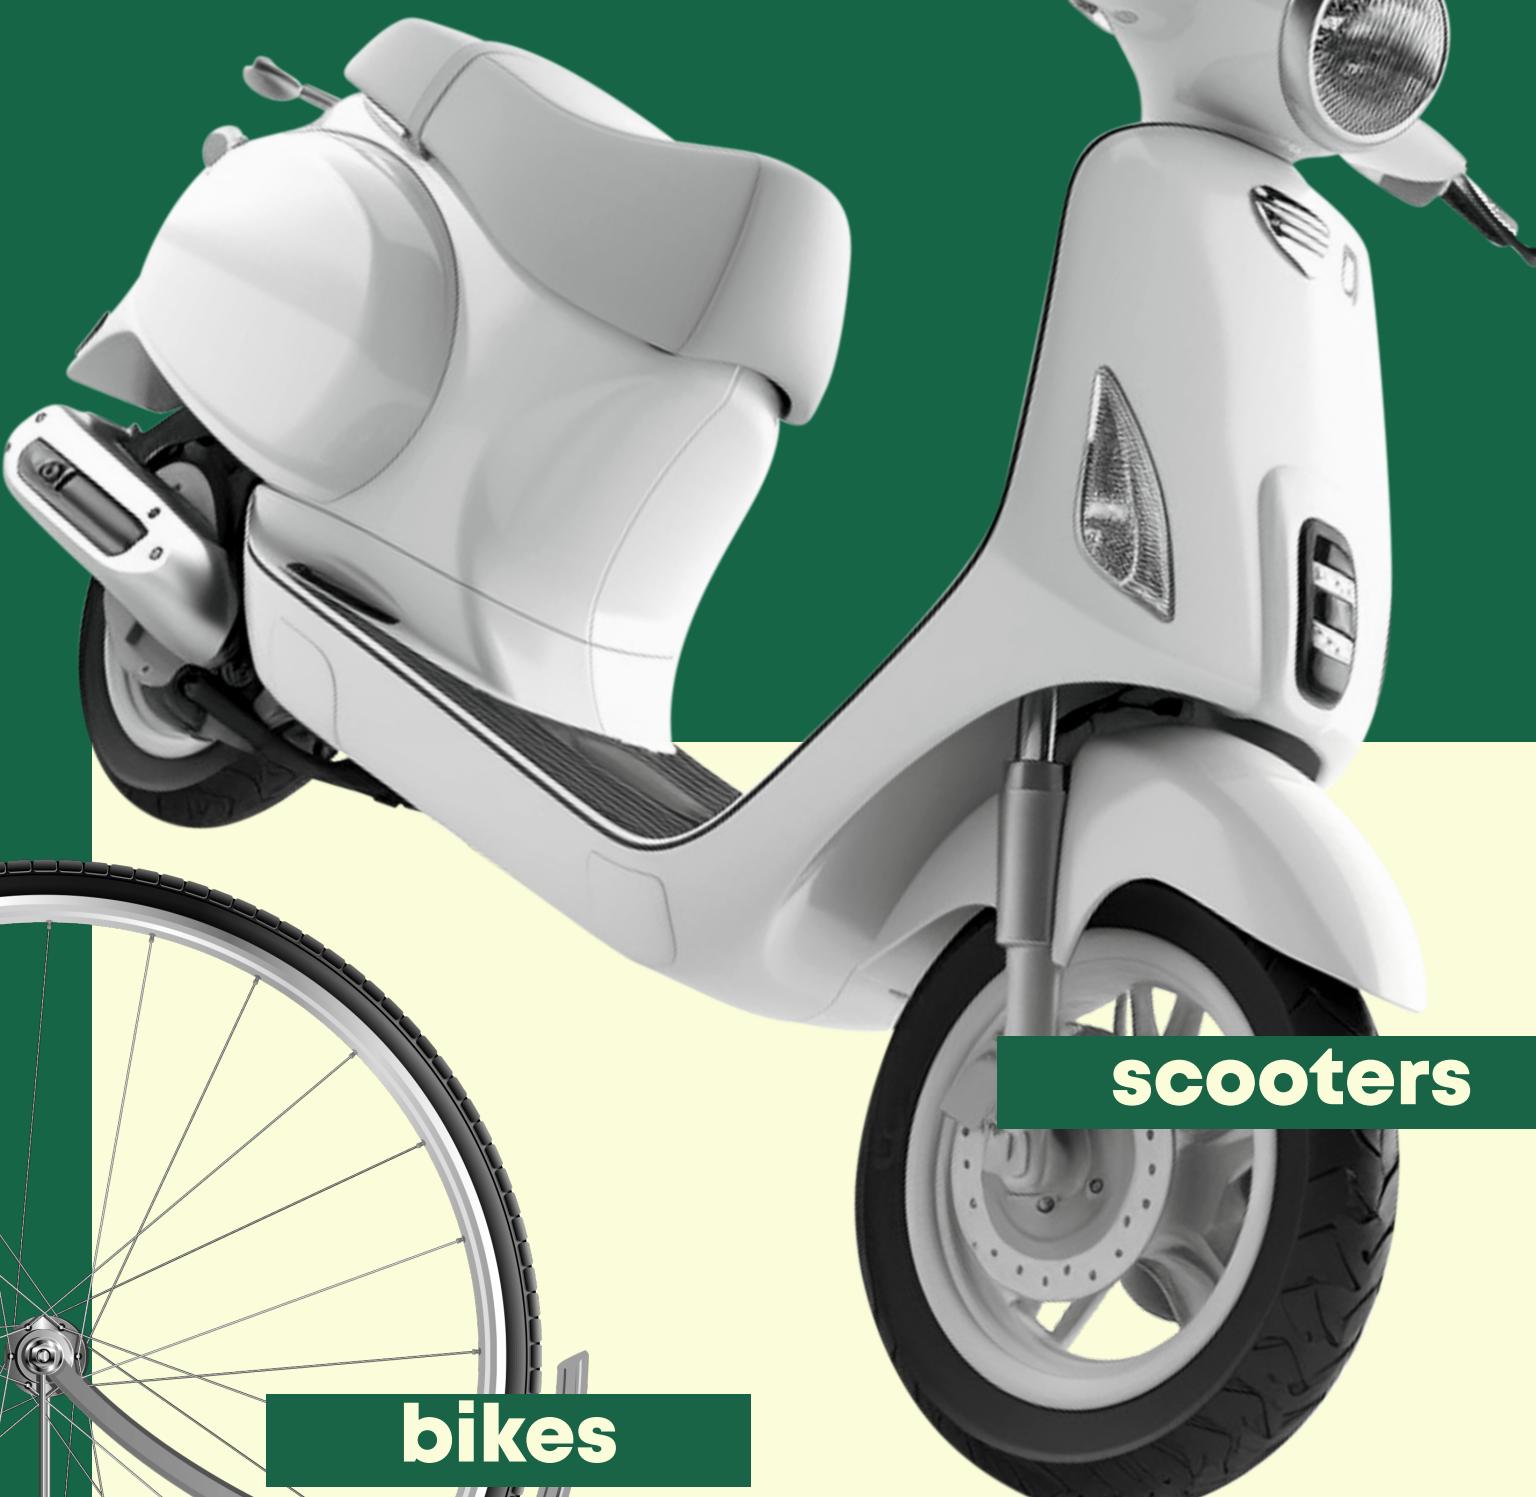

types of people  
inside the  
*cube*

paths taken

sometimes...

inside the

*car*be

scooters

bikes  
& e-bikes

trashbags

many, many feet

cars

residents of the pond

a few dogs on a walk

also sometimes...

inside the

*car*

music

dangling keys

conversations

full backpacks

conflict

& impatience

## unfinished tasks

# of the cube

times I moved through this cube:  
riding into the parking lot 10/9/24 at 16:35  
bringing away trash 10/9/24 at 19:46  
returning from trash dump 10/9/24 19:48  
i forgot to track the rest |

shadows change by the minute, maybe track them on a day off

amounts of times the intercom was used during recordings

cars passing through/ in or out at what times?

people moving from the train station can probably be correlated with bus times & train times ; how long does it take them to get here & what trains / busses did they take
